

## Mathematical&logical Intelligence

Look at the picture.

### Analysis

*How many animals are on the picture? Count them.*

*How many different animals are on the picture?*

*How many horse's legs are on the picture?*

### Evaluation

*How many animals on the picture are running? Which animals?*

*How many animals looking on the right and of the left side?*

*Which animals have no obstacles in front of them?*

### Creativity

*Create a picture where each animal will live in its own house.*

*Create a picture where there will be eight animal legs and three animals on the picture.*

*Create a house for two dogs, three cats and two monkeys. Build or draw it.*
